Operation and Maintenance

Operation

An electric strike release designed for high secure environments, providing the solution where security is a key consideration and access is to be permitted by authorized persons only. It can be operated by a wall mounted switch or a staff fob.

Maintenance

Periodic checks should be made to ensure the lock remains functional and that it has not been tampered with. Where necessary, additional lubricant such as a light oil can be added to enhance the action of the deadbolt.

Cleaning

Where necessary, only a damp cloth should be used. Under no circumstances should liquids be used to clean the lockcase.

Guarantee

3 Year Guarantee*

*For faulty manufacture and not for damage
