

KG11 Recessed Paper Towel Dispenser

Product datasheet

The KG11 recessed paper towel dispenser allows for the safe dispensing of standard multi-fold paper towel sheets. It is made from high-grade stainless steel and is anti-ligature by design. Constructed of a secure outer casing with cam-lock operation to allow staff to open inner cassette for refill. The unit is supplied with a standard key and security screws for installation.

Installation description

- Mark out the location of the dispenser on the wall
- Drill holes for screws provided, allowing for anchors to suit wall construction type.
- Attach unit securely to the wall, additional tamper proof caulking can be applied around outer flange.

Operation and Maintenance

Operation

To fill the dispenser, unlock and pull the towards you. Fill the dispenser with toilet tissue sheets push back into closed position and secure with lock

Maintenance

Periodically check lock for smooth function and lubricate when necessary with a dry graphite lubricant.

Cleaning

Should be cleaned as part of regular schedule using standard detergents or disinfectants, avoid acidic cleaners.
