KG360 Exterior (8"x8" Sample shown does not require 3-Point Locking)

3-Point Locking System

3-Point Locking System (Internal, Concealed)

Infection Control Gasketing

Anti-ligature Disclaimer

Anti-ligature Disclaimer The anti-ligature design characteristics of this product are not intended to replace or substitute the need for necessary supervision of those who may be at risk, or for other necessary protective measures to be taken in the specific circumstances of usage. Kingsway Group, Inc. does not offer any products for sale as being 'ligature-free', and will not be liable for any claims arising from ligature attachment on its products. It is the customer's responsibility to ensure that products purchased and installed are suitable for the environments they are installed in.

The KG360 series Ligature Resistant Secure Access Panels allow for ease of access and operation, yet protect against abuse and self harm. Manufactured to allow ease of the access to vital services, yet protect against ligature attachment and infection control. Fitted with a Cam-Lock lockset and operated by a standard dispenser key that is standard with other Kingsway items.

Installation Description

- Mark out the location of the access panel. Blocking is required to fit the Access Panel.
- Cut out the opening using Cut Sheet.
- Secure the access panel into the opening using the security fixings provided.
- Secure outer flange with Anti-Pick sealant.

Operation and Maintenance

Operation

To open the access panel, unlock the latch on the face of the access panel, allowing the door to swing freely. To return to the locked position, push the panel back into the recess.

Maintenance

Care should be taken to ensure that the lock remains functional and free from signs of damage.

Cleaning

Use only a damp cloth to clean the access panel, where necessary a mild detergent can be used.

Guarantee

5 Year Guarantee*

*For faulty manufacture and not for damage
