

PRODUCT DATASHEET

KG13 Recessed Toilet Roll Holder

The Kingsway recessed toilet roll holder provides a secure and effective means of dispensing standard toilet rolls whilst being anti-ligature by design. Manufactured from 316 grade stainless steel for maximum corrosion resistance and secured with anti-tamper fixings.

Installation Description

- Create an opening in the wall to take the protruding part
- Mark out for the fixing holes and drill and plug the holes
- Fix in place using the security fixings supplied

We recommend that you caulk around all sides with tamper proof security sealant.

Operation and Maintenance

Operation

Place a toilet roll in to the opening and locate it so that it is locked in both dimples, allowing the toilet roll to rotate. Care should be taken that the correct size roll is purchased, otherwise it will result in poor performance.

Maintenance

Periodic checks should be made to ensure the fixings are secure and that there are no signs of damage or tampering.

Cleaning

Should be cleaned as part of regular schedule using mild (non-abrasive) detergents. Avoid acidic cleaners.

Guarantee

5 Year Guarantee*

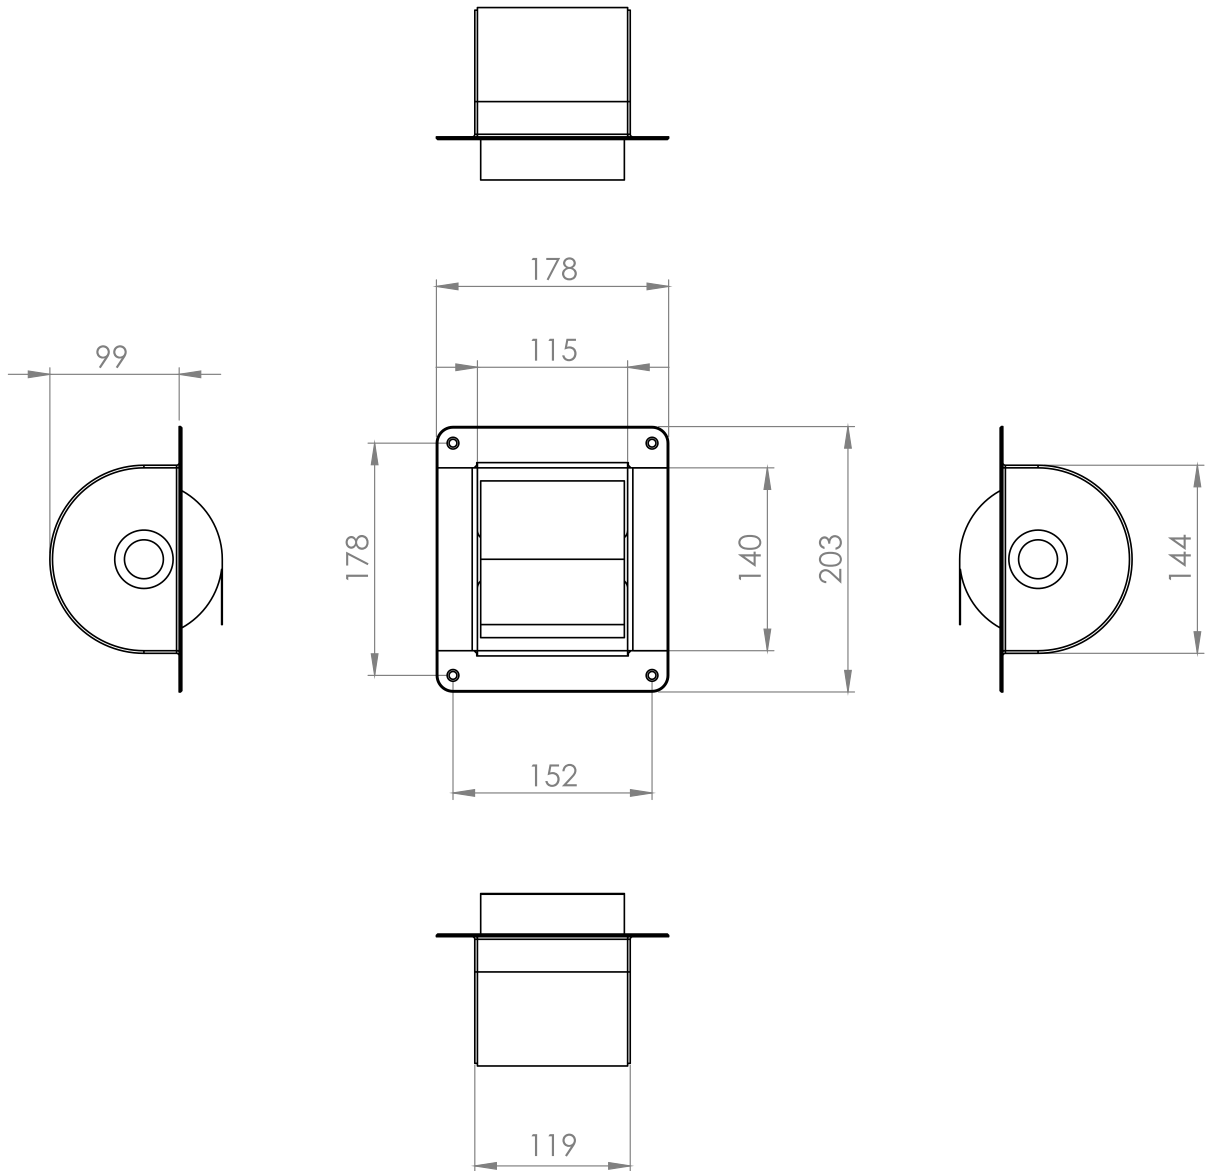

*For faulty manufacture and not for damage
