Lockset Information

Patient Function

This auto-locking lockset requires a key to be unlocked. Patients will require staff to open the door for them unless the patient has been issued with their own key.

Note: Check fire code regulation as to where the KG1700 lockset is specified as once locked it can only be opened by a key holder.

Staff Function

Staff will need to use a key to unlock the door from either side. The door will automatically lock when closed.
