Operation and Maintenance

Operation

The KG218 3-Point Locking System auto locks when closed and is operated by use of a central euro cylinder.

Maintenance

Periodic checks should be made to ensure the fixings remain tight and free of signs of tampering and that the latches are fully locating.

Cleaning

The 3-Point Locking System should be cleaned with a damp cloth. Cleaning agents should be avoided. Light grease can be used if the action has become stiff.

Warranty

1 Year Manufacturer's Defect Warranty*

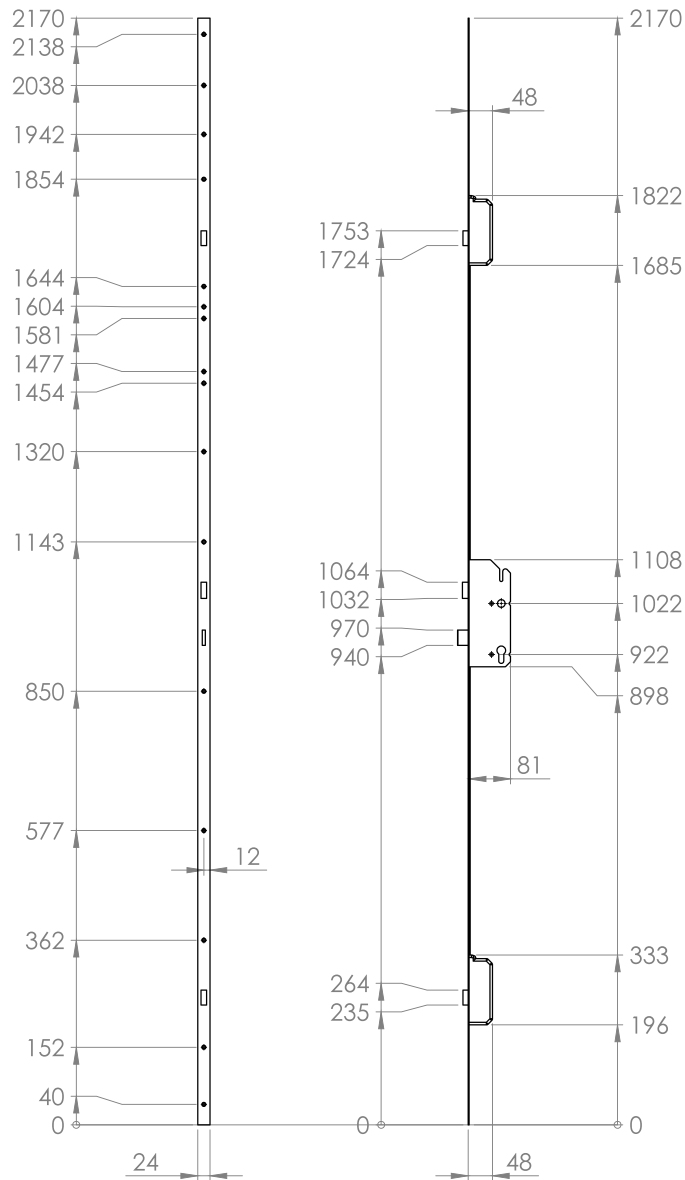

*For faulty manufacture and not for damage
