Installation Description

- Mark out the area where the bolt is to be fitted and drill out for the bolt, taking care to stay within the marked out square area then square the hole up with a chisel
- Insert the bolt and mark out for the square end plate then cut out this to the required depth
- Drill out for the key access to the face of the door and insert the spindle and then fix the front cover

Operation and Maintenance

Operation

Operated using the 8mm square or oval key to either throw or retract the bolt in half leaf doors.

Maintenance

Periodic checks should be made to ensure the bolt is free from damage and remains securely fitted. Light lubricant can be used if the action has become stiff.

Cleaning

Cleaning of security bolt should be with a damp cloth. Cleaning agents should be avoided.

Guarantee

5 Year Guarantee*

*For faulty manufacture and not for damage
