

PRODUCT DATASHEET

KG61 Classic Grip Pull Handle (Bolt Fixed)

The Classic Grip is a solid anti-ligature handle with a large finger grip area to aid those with impaired manual dexterity. It is shaped to resist ligature attachment and designed for greater infection control. The KG61 is a bolt-fixed handle that can be used with a KG60 handle on the other side of the door.

Installation Description

- Mark out the two fixing holes by placing the handle on the door, making sure the face of the handle is flat on the door
- Drill the fixing holes using a 10mm bit
- Fix the handle in place using the 2 countersunk security bolts supplied

Operation and Maintenance

Operation

The Classic Grip handle has been designed to allow 30mm of grip area for the fingers and the thumb, giving a positive grip that makes it easier to open heavy doors.

Maintenance

Periodic checks should be made to the fixings to ensure they remain tight and that they have not been tampered with.

Cleaning

Classic Grip handles should be cleaned using a non-abrasive sanitising agent. Abrasive cleaning cloth and agents should be avoided.

Guarantee

5 Year Guarantee*

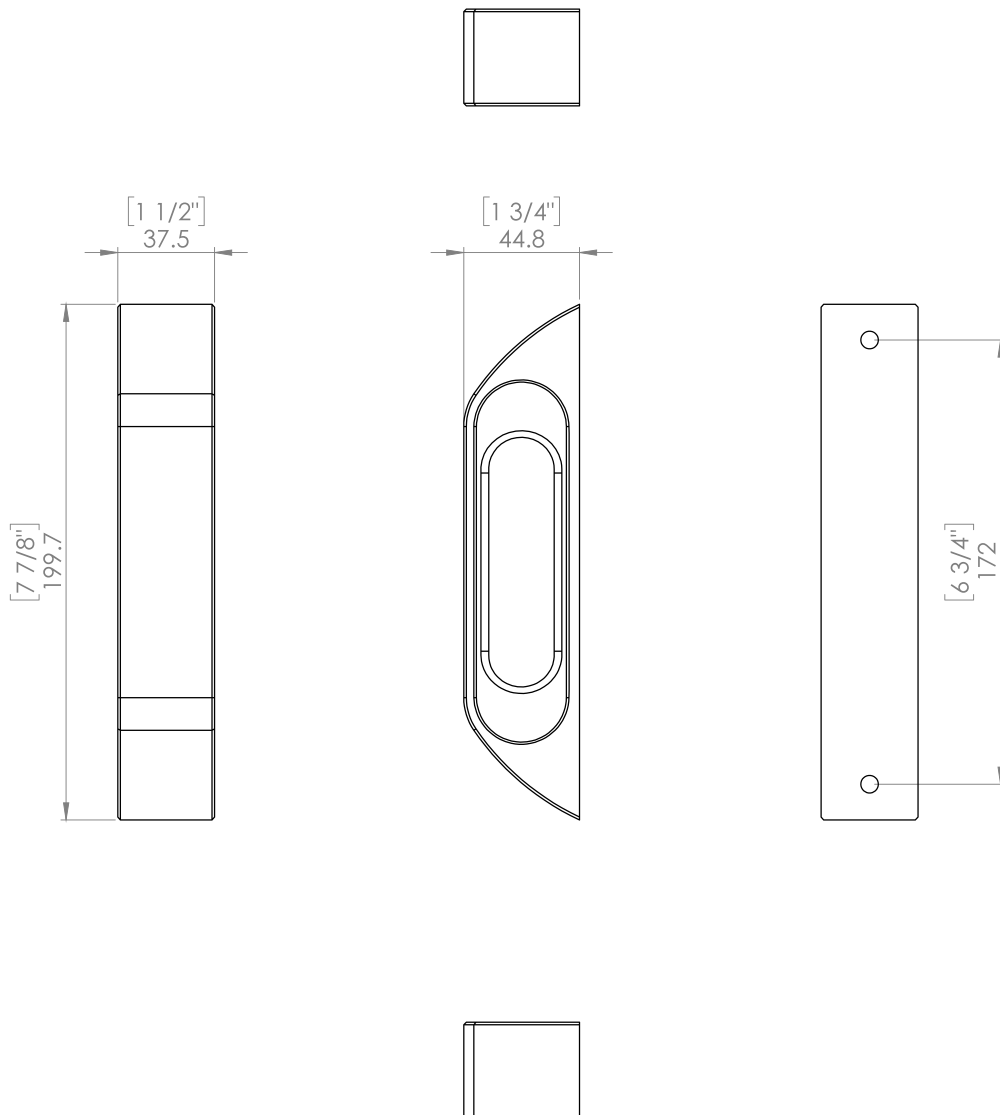

*For faulty manufacture and not for damage
