

PRODUCT DATASHEET

KG700 KALM Shower Shelf

Part of the multi-award winning KALM Co-Produced Washroom Range, the KALM Shower Shelf is an anti-ligature storage solution developed specifically for secure mental health washrooms. This solution delivers high strength performance and has been ligature and durability tested to ensure it meets safety standards.

The KALM Shower Shelf has been carefully designed to ensure it supports the normal routines of service-users. Feedback from our co-production team was that shelves are normally either too small to hold their items, or so big they were reminded of their missing home comforts. The considered design means that it holds enough items, with an etched surface to ensure they remain securely in place. This, coupled with the softened geometry and concealed fixings, helps to create a calming, non-institutional environment to aid patient rehabilitation and recovery.
