

PRODUCT DATASHEET

KG750 KALM Soap Dispenser

Part of the multi-award winning KALM Co-Produced Washroom Range, the KALM Soap Dispenser is an anti-ligature solution developed specifically for secure mental health washrooms. This solution delivers high strength performance and has been ligature and durability tested to ensure it meets safety standards.

The KALM Soap Dispenser has been designed to be less intrusive, with a smaller, sculpted shape and two texture finish to creating a healing, normalised environment. The thoughtful design continues into the functionality too;

- The large push button makes it easier to operate for people with restricted movement.
- An interchangeable insert allows you to change soap suppliers without having to replace the whole dispenser.
- Refilling is much easier thanks to the fold down cassette and hinged opening system.

The sculpted, softer design coupled with the concealed fixings helps to create a calming, non-institutional environment to aid patient rehabilitation and recovery.

Installation Instructions

Operation and Maintenance

Operation

Unlock the unit to access the internal holder. Replace or refill the cartridge as required and secure before use.

Maintenance

Regular inspection is recommended to ensure the product remains secure and fit for purpose. Check for signs of damage, defects, tampering or abuse. Any compromised components should be replaced immediately.

Cleaning

Our preferred cleaning product for maintaining the appearance and performance of the polycarbonate surface is VuPlex plastic cleaner.

Alternatively clean using non abrasive neutral pH detergents diluted in warm water and applied with a soft cloth.

Avoid abrasive pads solvent based cleaners highly alkaline products or aggressive chemical agents to maintain long term integrity.
