

PRODUCT DATASHEET

SERENITY Interactive Panel

The SERENITY wellness panel utilises the latest technology to support service user wellbeing in mental healthcare environments. Operated by an attack-resistant, anti-ligature touchscreen, SERENITY's bespoke software features a range of therapeutic applications designed to aid relaxation & de-escalation, support routine & planning, and provide service users with an enhanced sense of control within challenging environments.

SERENITY Key Features & Benefits

Service User Benefits

- 'Check-in' tool to encourage proactive communication with care teams
- 'Schedule' tool to assist routine & planning
- Therapeutic apps & games to aid relaxation & de-escalation
- Customisable user interface to personalise the care setting
- Integrated lighting system with circadian rhythm function to promote wellbeing
- View personal photos & videos or relax to therapeutic 'Roomscapes'
- Integrated speaker system for music & video (low powered with staff override controls)
- No cameras or microphones to alleviate service users' privacy concerns
- High-strength, anti-ligature design for enhanced safety

Staff Benefits

- Remotely accessed staff-only control panel for complete control over all SERENITY units within the ward
- Filter content for each SERENITY unit to ensure suitability for individual service users
- Gain greater insight into how a service user is feeling to promote proactive intervention
- Provide service users with ward-related information such as timetables & agendas
- Easily transfer a service user's info from one SERENITY unit to another if a service user moves rooms
- Remotely enable/disable individual SERENITY units including sound and lighting functions
- Intuitively upload files such as photos or videos for a service user to view
