Kingsway Group

KG111 Continuous Hinge

Anti-ligature Disclaimer

Anti-ligature Disclaimer The anti-ligature design characteristics of this product are not intended to replace or substitute the need for necessary supervision of those who may be at risk, or for other necessary protective measures to be taken in the specific circumstances of usage. Kingsway Group, Inc. does not offer any products for sale as being 'ligature-free' and will not be liable for any claims arising from ligature attachment on its products. It is the customer's responsibility to ensure that products purchased and installed are suitable for the environments they are installed in.

The stainless steel continuous geared hinge runs the full length of the door and provides maximum strength, security and safety.

Installation Description

- Rout out the frame to suit the hinge leaf
- Rout out the edge of the door and secure hinge to the door using the security fixings
- Attach the door and hinge to the frame taking care to get the clearance correct to the head and foot of the door

Operation and Maintenance

Operation

The stainless steel continuous hinge operates by an interlocking butt mechanism that provides a high strength and smooth motion for heavy high traffic doors

Maintenance

The continuous hinge is largely maintenance free. Periodic checks should be made to ensure that the hinge or the fixings have not been tampered with

Cleaning

Cleaning of the hinges should be with a damp cloth. Cleaning agents should be avoided.

Guarantee

5 Year Guarantee*

*For faulty manufacture and not for damage
