KG175/176 Security Escutcheons

Anti-ligature Disclaimer

Anti-ligature Disclaimer The anti-ligature design characteristics of this product are not intended to replace or substitute the need for necessary supervision of those who may be at risk, or for other necessary protective measures to be taken in the specific circumstances of usage. Kingsway Group, Inc. does not offer any products for sale as being 'ligature-free' and will not be liable for any claims arising from ligature attachment on its products. It is the customer's responsibility to ensure that products purchased and installed are suitable for the environments they are installed in.

The stainless steel security escutcheon gives maximum protection to euro profile cylinders and is available to suit both double and half sizes. Supplied with security screws for the face fix version and three lengths of security bolts for the bolt fix version they are versatile products to suit a wide range of door thicknesses.

Installation Description

- Place the escutcheon with the countersunk holes over the protruding cylinder and drill two clearance holes for the bolts
- Fix the escutcheon in place making sure to select the correct length bolts to suit the door thickness

Operation and Maintenance

Operation

Designed to give maximum protection to the cylinder and to remove ligature risk from the cylinder.

Maintenance

Periodic checks should be made to ensure the fixings remain tight.

Cleaning

Cleaning of the escutcheons should be with a damp cloth. Cleaning agents should be avoided.

Guarantee

5 Year Guarantee*

*For faulty manufacture and not for damage
