KG362 Access Panel 450 x 450mm

Anti-ligature Disclaimer

Anti-ligature Disclaimer The anti-ligature design characteristics of this product are not intended to replace or substitute the need for necessary supervision of those who may be at risk, or for other necessary protective measures to be taken in the specific circumstances of usage. Kingsway Group, Inc. does not offer any products for sale as being 'ligature-free' and will not be liable for any claims arising from ligature attachment on its products. It is the customer's responsibility to ensure that products purchased and installed are suitable for the environments they are installed in.

Secure access panels to allow ease of operation yet protect against abuse and self harming. These secure steel panels are manufactured to allow ease of the access to vital services yet guard against physical abuse and the risk of fire. Fitted with a heavy duty deadbolt lock and operated by a euro cylinder which is protected by a solid stainless steel escutcheon.

Installation Description

- Mark out the location of the hatch
- Cut out the opening
- Secure the access panel into the opening using the security fixings provided
- We recommend that all access panels are also sealed around all sides with anti-pick mastic

Operation and Maintenance

Operation

To open the access panel, unlock the latch on the face of the access panel, allowing the door to swing freely. To return to the locked position, push the panel back into the recess.

Maintenance

Care should be taken to ensure that the lock remains functional and free from signs of damage.

Cleaning

Use only a damp cloth to clean the access panel, where necessary a mild detergent can be used.

Guarantee

5 Year Guarantee

*For faulty manufacture and not for damage
