

PRODUCT DATASHEET

KG100 Push Plate

The Kingsway Push Plate is designed to protect doors from wear - made from 1/8" solid stainless-steel plate with radiused ends and beveled edges. The ligature-resistant push plate is easy to clean for simple infection control, while crucially remaining safe for installation in patient areas. Supplied with security screws.

Your Partner in Patient Safety

Installation Description

- Mark out the area where the plate is to be installed and pre-drill the 6 holes
- Mount in place using the security screws provided

Operation and Maintenance

Operation

Designed to provide a hard-wearing push area on the door that is easy to clean and safe for use in patient areas.

Maintenance

Periodic checks should be made to ensure the screws remain tight and that they have not been tampered with.

Cleaning

Push Plates should be cleaned using a non-abrasive sanitizing agent. Abrasive cleaning cloth and agents should be avoided.

Guarantee

3 Year Guarantee*

*For faulty manufacture and not for damage
