

PRODUCT DATASHEET

KG177 Ligature Resistant Dual Coat Hook Rack

The KG177 is a ligature-resistant dual coat & towel rack featuring two flexible hooks with low release thresholds. The flexible hooks are made from a low shore rating rubber with a high silicone content and are secured by a stainless steel surround, fixed by four security screws that pass through both the surround and the rubber. Available in a selection of colors to suit your environment.

Installation Description

- Mark out the (4) fixing holes using the template provided
- Drill the (4) fixing holes for the provided security screws and insert suitable anchors
- Secure in place using the (4) security screws

We recommend that you apply tamper proof caulking around the perimeter of the unit.

Operation and Maintenance

Operation

Designed for use with garments and towels and will release under load. Load release tested to meet National Standards.

Maintenance

Periodic checks should be made to ensure the screws remain tight and that the rubber has not been damaged.

Cleaning

Clean using a non-abrasive sanitizing agent. Abrasive cleaning cloth and agents should be avoided.

Warranty

1 Year Manufacturer's Defect Warranty*

*For faulty manufacture and not for damage

Specification
