

KG178 SS Ligature Resistant Quad Coat Hook Rack

Product datasheet

The quad coat hook rack is a stainless steel back plate which securely holds the four flexible rubber hook parts. The rubber hook parts are made from a low shore rating with a high silicone content and mounted by security screws that pass through both the surround and the rubber.

Installation Description

- Mark out the location on the wall
- Drill holes for screws provided, allowing for anchors to suit wall construction type.
- Mount unit securely to the wall, tamper proof caulking can be applied if necessary

Operation and Maintenance

Operation

Designed for garments and towels up to 15 pounds. The rubber hook will flex if weight is exceeded.

Maintenance

Periodic checks should be made to ensure the screws remain tight and that the rubber has not been damaged.

Cleaning

Should be cleaned as part of regular schedule using standard detergents or disinfectants, avoid acidic cleaners.

Guarantee

5 Year Guarantee*

*For Faulty Manufacture And Not For Damage
