

## PRODUCT DATASHEET

# KG236 Ligature Resistant Dry-Erase Whiteboard

The KG236 is a ligature-resistant, shatterproof, and dry-erase whiteboard designed for safe use in behavioral health environments. It features a high strength aluminum frame with a white acrylic back panel and a clear polycarbonate face panel which patients and staff can write or draw on, helping to keep track of weekly activities or simply for entertainment purposes. The unit is secured to the wall with 20x security fixings and available in a selection of finishes.

# Your Partner in Patient Safety

## Installation Description

- Position the whiteboard in the desired location
- Mark out the 20x fixing holes and pre-drill if fixing into a solid surface
- Blocking is recommended wherever possible. When fixing to a brick or block wall, ensure suitable anchors are used for a secure fixing
- Secure the whiteboard to the wall using the security screws provided, ensuring a tight fixing with no movement

We recommend that you apply tamper proof caulking around the perimeter of the unit

## Operation and Maintenance

### Operation

The KG236 is designed for use in patient & staff areas in behavioral healthcare environments, serving as a safe replacement for standard non-ligature-resistant whiteboards. The unit is compatible with typical dry-erase markers & erasers/microfiber cloths.

### Maintenance

Frequent checks should be made to ensure the whiteboard is free from signs of tampering or damage, that all screws are secure, and that there is no movement in the screws or frame. The unit can be cleaned with a soft, damp cloth and light, soapy water.

## Warranty

### 1 Year Manufacturer's Defect Warranty\*

\*For faulty manufacture and not for damage

### Specification

KG236 Ligature-Resistant Dry-Erase Whiteboard.
