Installation Description

The KG201 Continuous Hinge is only supplied as part of a Kingsway Group Complete Door System where all components are fitted and tested in the production process.

Operation and Maintenance

Operation

The continuous hinge operates by an interlocking extruded cog mechanism that provides a high strength and smooth motion for doors with heavy usage.

Maintenance

Periodic checks should be made to ensure the hinge or the fixings have not been tampered with and that the fixings remain tight.

Cleaning

Cleaning of the hinges should be with a damp cloth. Cleaning agents should be avoided.

Guarantee

3 Year Guarantee*

*For faulty manufacture and not for damage
